

HAWAII PRACTICE QUOTES

Sunday, Dec. 30, 2007

WR RYAN GRICE-MULLEN, QB COLT BRENNAN, OL HERCULES SATELE

Question for Ryan Grice-Mullen – Are you feeling it yet? Are you at a point where you feeling let's do this? – “Definitely. I feel I am at that point. After that first practice with shoulder pads we were really getting ready for game situations. Everyone was flying around to the ball on defense and offense. It's almost here, game time. We have our walk-through tomorrow, put on the full uniform and get in a workout. It's here.”

Question for Ryan Grice-Mullen – Physically I know your ready but what do you go through mentally to get ready for the game? – “I just have to stay relaxed. Stay relaxed and calm as possible. With all of the (media) stuff going on at the hotel and all of the things going on in and around the city, we really have to get focused. This is when you just have to stay relaxed and get into your own zone.”

Question for Colt Brennan – How ready is this team? – “We have done a great job, I think, of handling everything from the travel to the practices. The coaches keep commenting on how well we are doing with everything surrounding us. If you know us (offense) our walk-through isn't a normal walk-through it's a full on practice, so we do not get the joy of a last practice. I know Coach Jones will run us down and make sure we have everything down and going. I think everything feels good right now, everyone feels good and is excited. We just can't wait for tomorrow and get down to the Superdome.”

Question for Colt Brennan – Are you at a place mentally where, if you have to go now you say, 'let's go and do it'? – “I mean yeah it is the last game. There is nothing else after this. It's a feeling I haven't really ever felt before going into a football game but it feels good. I think a lot of the guys are feeling really good about how the season went and how it's going to end. Everyone just wants to go out and have some fun and play football.

Question for Colt Brennan – From an offensive standpoint do you expect the speed of the game to be different or do you guys feel like you conduct the speed of the game on offense? – “There is no doubt that Georgia is fast, extremely fast. I can't even tell you how impressed I was this week with our running backs, o-lineman and receivers. They came out and practiced as if they were going against speed and although we didn't get that look from the scout team we practiced as if someone was on our back. I watched the way the guys worked this week and they prepared for speed and it has been a great thing. We really won't know until game time what we are really in for.”

Question for Hercules Satele– Are you ready for this game? – “It's been a long week; long practices and we are just ready for the game. We have been ready for the game ever since we arrived here in New Orleans. It's been a long week for us and we loved it over here but it's time to get down to business.”

Question for Hercules Satele – Georgia is going to come at you and you know it. Do you guys have answers for them? – “We kind of know what they are going to do but you really never know what they will bring on Tuesday. You can prepare and plan for everything and they will come out with a totally different look. We just have to come out and be ready for everything.”

Question for Hercules Satele – So much has been said about Georgia’s team speed. Do you think that will impact the game and what the offense tries to do and will there be any adjustments during the game? – “There will be a lot of adjustments during the game. Their speed is incredible. They will come at you from the backside every play and if you don’t get the block they will hit you from behind. So we have to be ready for that and stay on our blocks.”
